Do your clients Love their Skin?

Show them the benefits...

We've been talking about skin conditioning and keeping clients' skin in prime condition while prolonging the benefits of body sugaring long after their services. Since many of you are already selling the pre/post products which we encouraged you to do, we decided to package them up as a retail kit called "I Love My Skin"!

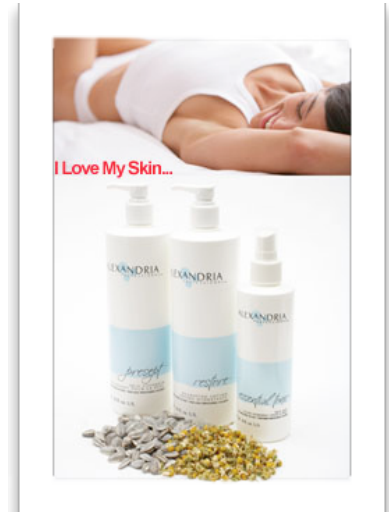

You can now purchase them bundled together to make it convenient and more obvious to the client that they can benefit from using these products at home too!

Presept Skin Cleanser™: works to remove bacteria, dirt and oil without drying or disturbing the natural balance of the skin. Gentle enough for all skin types and babies.

Essential Tonic™: is an anti-inflammatory, anti fungal, cell re-generator and makes an excellent facial and body tonic.

Restore Hydrating Lotion™: is soothing, has excellent absorption to hydrate the skin and can be used on the face as well the entire body. It is hypo allergenic and non comedogenic as well.

This is a great value particularly in this economy when people are looking for value in their purchases. These are the full size Presept Skin Cleanser™, Essential Tonic™ and Restore Hydrating Lotion™ pulled together in the kit. The clients can put them into their bath/shower and use them as full face and body cleansing routines. Great for all skin types!

Client Model Call

We are looking for client models to be featured on upcoming segments on various television shows and print media. If you don't already have a portfolio started, we do have a template you can get from your educator with the format the producers are looking for. They are looking for unusual cases where sugaring has benefited or changed their lives as well as the condition of their appearance. Below is the list of current cases but this is by no means all that there is out there so please share anything you have come across in your sugaring practice that you feel might be a situation others in the world could benefit from.

- A man with unsightly Uni-brow
- A man or woman with Hairy Hands
- A man with noticeable amount of Ear Hair
- A woman with visible and embarrassing Facial Hair
- Dark Skin that has been damaged from waxing or other methods of hair removal where sugaring has benefited
- A bikini with damage from ingrown hairs where sugaring is benefiting
- Also if a spouse/significant other can appear as well to discuss the issue

Information needed for client models include:

- Before and After Pictures
- Client info Name, Address, Phone, Email
- Products client is using, Phenomen-all, Mud Puddle, Salt Spring, etc.
- Treatment notes, how many times they have been sugared so far, results each time, etc.

Come by our Booth at:

Dallas Show Booth 600 & 602 March 22 - 23, 2009
International Skin Care Las Vegas, NV June 13-16, 2009

Career Opportunities

Would you like to share the knowledge about Alexandria Professional™ products and services. Contact your representative to discuss the possibilities, full-time and part-time opportunities are available.
