

KISS Waxing®

KEEP IT STRIP SUGAR®!

SQUEEZE, SPREAD, AND STRIP

No more double dipping!

KISS WAXING® IS AN ALEXANDRIA PROFESSIONAL® BRAND

WHY KISS WAXING®?

A SIMPLE, SAFE & EFFECTIVE SYSTEM

In a strong effort to answer the cries of beauty academies across the world, Alexandria Professional® developed a very simple, safe and effective waxing product that is all natural, water soluble, not hot to the skin, 100% sanitary, easy to use and more economical!

NO MORE DOUBLE DIPPING!

Double dipping into a wax pot is never recommended and it is against regulations in most countries. Too many staph infections have been reported over the years due to waxing.

KiSS Waxing® system eliminates all cross-contamination issues associated with conventional waxing by using a squeeze bottle!

*Made for professionals,
by professionals*

“You should be kissed and often, and by someone who knows how”

– Rhett Butler,
Gone With the Wind
(1939)

KISS WAXING® IS AN ALEXANDRIA PROFESSIONAL® BRAND

HOW TO USE

SQUEEZE

Depending on the area of the body you are working on, you can either apply the KiSS Waxing® to a spatula for smaller areas such as eyebrows or directly to the skin from the squeeze bottle for larger areas.

SPREAD

Using your KiSS Waxing® bottle, squeeze directly onto the skin and spread in an even, thin layer. Apply the epilation strip over the KiSS Waxing®, and press firmly onto the skin in the direction of the hair growth.

STRIP

Hold the skin taut, and remove the strip against the direction of growth.

Say goodbye to double dipping and cross-contamination with KiSS Waxing® Hair Removal System

DOES IT HURT?

KiSS Waxing® does not hurt as much as conventional wax because it does not stick to live skin cells. KiSS Waxing® formulation has zero wax resin and is made of sugar, lemon and water. It is 100% water soluble and gentler to the skin.

IS IT SAFE TO DO?

KiSS Waxing® is very safe for all skin types. It is formulated to be gentle on even the most sensitive skin types. KiSS Waxing® system allows you to go over the same area for more stubborn hair extraction without damaging the skin.

HOW LONG DOES MY HAIR HAVE TO BE?

Although KiSS Waxing® can extract short hair, the first and second treatment will provide better results on hair that is 1/8” - 1/4” or 4mm – 8mm.

WILL THE HAIR GROW BACK THICKER AND DARKER?

Properly extracting hair does not make it grow back thicker or darker. A hair that becomes darker and heavier – as seen on women’s facial hair generally in the upper lip and chin area, is predetermined to do so or has been prompted to change into a terminal hair by one of several factors such as, but not limited to, hormones.

HOW OFTEN DO I NEED TO GET IT DONE?

Generally, you can go 3-6 weeks before coming back for a treatment. You are not as limited with treatment frequency when using KiSS Waxing® as you might be with other waxing products. KiSS Waxing® is skin friendly and 100% water soluble, which makes it adaptable to an “as needed” basis.

PRE AND POST TREATMENT

Pre and Post Care with any hair removal techniques is extremely important, and why we include it with all of our KiSS Waxing®. Read about each product below to understand how each one helps you achieve the best results.

PRE

PRESEPT SKIN CLEANSER

Presept Skin Cleanser is antimicrobial with no perfume or fragrance additives making it safe and gentle for all skin types, used to remove all skin oils and lotions from the skin. Skin oils and lotions will affect the ability of KiSS Waxing® to effectively grip the hair.

PRE

POST

ESSENTIAL TONIC

Essential Tonic skin mist is anti-microbial, anti-fungal, anti-viral, and anti-inflammatory. The natural plant surfactant ingredient helps to open up the cuticles of the hair shafts, allowing KiSS Waxing® to better grip the hairs for superior extraction.

PRE

VERTICAL 6

Vertical 6 drying powder is aluminum-free, perfume-free, oil-free, chemical-free and safe on all body parts. It will expose any fine, vellus hairs that can be difficult to see. Before applying, make sure the Essential Tonic is completely absorbed into the skin.

POST

RESTORE

Restore hydrating lotion is a lightweight, non-comedogenic lotion that is fragrance free, and will hydrate and calm the skin. It is an all over body hydrating lotion that softens and moisturizes your skin without irritation.

ABOUT ALEXANDRIA PROFESSIONAL®

Alexandria Professional® is a body sugaring company dedicated to providing result oriented hair removal solutions to the beauty and wellness industries. Our commitment is to educating professionals in our hair removal and skin conditioning treatments.

EDUCATION

Having developed and pioneered our innovative sugaring process for the removal of unwanted hair, and our Full Circle of Skin Conditioning® program, we are committed to passing on our wealth of knowledge through top notch education around the world.

ALL NATURAL

Alexandria Professional® is dedicated to providing healthy, natural solutions to the beauty and wellness industries.

GIVING BACK

As a company, we take a stand to end violence against women, and make a commitment to give back to the community.

COLLABORATION

We strive to work with our clients to resolve any skin concerns and improve the overall condition of their skin.
